

MEHIK KUMARI

Software Developer | MERN Stack Developer

maheknankani34@gmail.com | 0305-1233630 | Karachi, Pakistan | [linkedin.com/in/mahek-nankani](https://www.linkedin.com/in/mahek-nankani) | github.com/maheknankani

PROFILE

Computer Science graduate from SZABIST with hands-on experience building full-stack web and mobile applications using the MERN stack. Proficient in React, React Native, Node.js, Express, and MongoDB, with a strong grasp of REST API design, real-time features, authentication, and database modeling. Experienced in end-to-end feature development, from schema design to responsive UI, along with third-party integrations like payment gateways and cloud media handling. Comfortable working in team environments through GitHub-based version control, code reviews, and agile practices. Eager to contribute clean, scalable code to innovative, high-impact software products.

SKILLS

Languages: C, Java, Python, JavaScript, PHP
Backend: Node.js, Express.js, REST APIs, JWT, Socket.io
Frontend: HTML/CSS, React, React Native, Responsive Design
Database: MongoDB, PostgreSQL
Tools & Cloud: Git, GitHub, AWS, Cloudinary, Power BI, Postman
Design: UI/UX Design, Adobe Illustrator, Logo Design
Soft Skills: Problem-Solving, Teamwork, Communication, Leadership

WORK EXPERIENCE

- MERN Stack Intern | 10Pearls**2025
 - Built and maintained full-stack features using MongoDB, Express, React, and Node.js, including REST API endpoints, reusable UI components, and form validations; collaborated closely with senior engineers via GitHub workflows on version control, pull requests, debugging, and code reviews to ship production-ready features on schedule.
- Frontend Development Intern | Elevvo Pathway**2025
 - Completed a 1-month internship building and refining responsive website layouts using HTML, CSS, and JavaScript, focusing on cross-browser compatibility, mobile-first design, and clean, functional user interfaces under mentor guidance.
- Design Team Member | ZAB E-Fest, SZABIST**2024
 - Supported ZAB E-Fest, SZABIST's flagship technology festival, by creating logos, ID cards, certificates, and other branding assets for the event.

PROJECTS

- CareerMap (Final Year Project):** Developed a full-stack student career guidance platform enabling users to search universities, connect with mentors, receive personalized program recommendations, and communicate via real-time chat powered by Socket.io; integrated PayFast for secure payment processing and built a marketplace for buying and selling study material; designed the database schema and RESTful APIs, and built responsive UI components for a seamless end-to-end user experience. Tech: React.js, Node.js, Express.js, MongoDB.
- Bookworm:** Built a full-stack mobile application for managing personal book collections, featuring secure login/signup with JWT authentication, user profile management, and complete CRUD functionality for adding, editing, and organizing books; integrated a Node.js/Express backend with a MongoDB database and a React Native frontend for a smooth cross-platform experience.
- Weather Prediction System:** Designed and implemented an AI-based weather forecasting tool that predicts future weather conditions from historical data, comparing the performance of Multilayer Perceptron, K-Nearest Neighbors, and Decision Tree algorithms to identify the most accurate model; involved data preprocessing, feature engineering, and model evaluation.
- Personal Portfolio:** maheknankani.github.io/Portfolio
- Home Service (Design & Creativity):** Designed the brand logo and complete UI/UX for a home services platform, crafting wireframes and high-fidelity mockups in Adobe Illustrator to create an intuitive booking flow and a visually cohesive, user-friendly experience across screens.
- Coffee Shop Website:** Designed and developed a fully responsive coffee shop website with an interactive menu section, smooth navigation, and mobile-friendly layouts, using HTML, CSS, and JavaScript to deliver an engaging and seamless browsing experience.

EDUCATION

- BS Computer Science | SZABIST University, Karachi**2022 – 2026

CGPA: 3.39 | Relevant Coursework: Data Structures & Algorithms, Web Engineering, Database Systems, Artificial Intelligence | MERN-based Final Year Project: Career Guidance & Mentorship Platform - CareerMap
- Intermediate & Matriculation | Sindh Public Higher Secondary School, Ghotki**2018 – 2022

Intermediate: 82% | Matriculation: 78.8% | Pre-Engineering group with strong foundation in Mathematics and Computer Science.

CERTIFICATIONS

- AWS Cloud Foundations:** Gained foundational knowledge of AWS services, including EC2, S3, IAM, VPC, and RDS, with cloud architecture basics.
- Red Hat Linux System Administration:** Developed hands-on skills in Linux system administration, user management, file permissions, and command-line operations.
- GDSC 5-Day Programming Bootcamp:** Enhanced programming and problem-solving skills through a 5-day GDSC bootcamp.
- GitHub Course Completion:** Covered Git and GitHub fundamentals, branching, pull requests, and team collaboration workflows.
- AIESEC – The Billion-Rupee Code:** Gained knowledge of personal finance, budgeting, and sustainable money management through a financial literacy program.
- ZAB-E-Fest UI/UX Competition:** Participated in a university-level UI/UX design competition, showcasing interface designs focused on usability and creativity.
